What I would write:

This program not only aligns with my personal and academic goals but also resonates with my commitment to broadening horizons. As an engineering student, the chance to enhance my English language skills and embark on a short educational and cultural journey abroad would be a transformative experience. It would not only enrich my linguistic abilities but also broaden my global perspective and foster a deeper understanding of diverse cultures. I am eager to take advantage of this opportunity and make the most of it.

An aerial photograph of a coastline, showing a mix of green land, brownish-yellow fields, and a dark body of water. The sky is filled with large, white, fluffy clouds. In the top left corner, the wing of an airplane is visible. A large, semi-transparent orange circle is centered over the image, containing the text 'QUESTIONS?' and a horizontal line below it.
